Financial and Input Metrics Page Zero FAQs:

1. What were the patterns of digital titles transitioning to Managed in Q1-26? (Table 2A, rows 22–24)

In Q1-26, 169 digital titles migrated from KDP to Managed. The titles represented \$1.1M in KU earnings and \$461k in ALC GMS in the 12 months prior to their transition.

KU earnings were highly concentrated: the top 3 titles accounted for 50% of Q1 KU, and the top 7 for 80%, led by Parker Lennox's *The Ascended* (\$365k) and Sophia St. Germain's *The Compelling Fae* series (\$369k across 4 titles).

The high title count was driven by a single event: Open Road Media acquired 126 backlist KU series fiction titles in February from a large KDP publisher. These titles carry zero ALC GMS and negligible individual KU earnings (~\$681 GMS/title avg) but accounted for 75% of the number of Q1 titles migrated.
